Once implemented, the Contractor must pay the transaction fees for orders placed against the contract. In the event, the Contractor fails to make payments, the State may: (i) eliminate the Contractor from the system in accordance with an escalation and review process developed by the State and its e-procurement vendor and (ii) terminate the State contract and award the contract to the next acceptable bidder.

b. At the time that the Contractor will be required to offer products/services through the e-procurement system, the State will negotiate an equitable adjustment in unit prices to account for the expected

supplier fees on orders placed on the system. The State will negotiate a single pricing structure for contract purchases and (i) prohibit discounting off-system purchases or otherwise offering discriminatory pricing or preferences for orders placed off-system; and (ii) require the Contractor to manually track and report the ordering volume of off-system purchases of supplies/services.

Maintenance

- 4.3.3.9 Maintenance Options

***Response:***

***Enterasys Networks provides the following maintenance options:***

Option Plan 1 - Time & Materials –

Vendor will provide a list of certified contractors (residing within each State) that can resolve problems in a timely manner. This option is understood to be of lowest priority to the contractors providing the services and does not include software or hardware upgrades. Pricing for the contractors time and materials is left up to those individual contractors and will not be required in this RFP.

## Option Plan 2 – Software Updates, Support –

Vendor will provide to the customer all new releases of manufacturer software updates for installation on all owned equipment. Vendor will also provide unlimited access to a Technical Support Hot Line for customers' trained technicians to obtain support for the resolution of complex problems and problem identification. Telephone response by the Vendor must occur within 2 hours of a service call being placed. Vendor will promptly resolve all reported software problems and provide prompt remedial action, if appropriate. Vendor will also provide for the routine distribution of manufacturer's technical or release notes in a variety of media.

Failed parts replacement - Vendor will provide for the prompt replacement of failed parts or components of owned equipment, including (but not limited to) advance shipment of replacement parts from the Vendor's inventory to be received by the customer within 24 hours of a determination that a component has failed, and will pay for the cost of the return shipment of the failed parts. Replacement parts will be at the current manufacturing revision level, and the cost of reinstallation is to be borne by the WSCA. Expedited exchange and repair must also be available from the Vendor, if required by the customer, at reasonable "time and materials" and shipping costs.

## Option Plan 3 – 8 to 5 Service and Maintenance

On-site support for hardware and software problems using factory-certified technical staff, including full restoration of operations within forty-eight (48) hours after the reported failure or problem. Telephone response by the Vendor must occur within two (2) hours of a service call being placed for "major" failures (system down), and Vendor staff must be at the customer's site within 8 working hours. Service will include all new releases of software and installation of manufacturer's software updates. Service will include 8 a.m. to 5 p.m. access to Technical Support Hot Line for customer's "user-trained" staff to troubleshoot problems and identify component failures. Service will also include the replacement (at no additional charge to the customer) of any failed parts or components. Vendor's Hot Line must provide toll-free calling for the customer, and be staffed from 8:00 a.m. to 5:00 p.m. within the applicable time zone. Vendor will supply such "end-user" training as is needed for customer's staff to interact successfully with the Vendor's support staff on an ongoing basis. (Vendor should describe training program.)

### 4.3.2.8 Option Plan 4 – 7 X 24 X4 Service and Maintenance

Problem reporting must be available twenty-four (24) hours a day, seven (7) days a week. Telephone response by the Vendor must occur within two (2) hours of a service call being placed for "major" failures (system down), and Vendor staff must be at the customer's site within 4 working hours. Responding technical staff must be factory-certified and must provide full restoration of operations within twenty-four (24) hours of the reported failure or problem. Service will include all new releases of software and installation of manufacturer's software updates. Service will include access to Technical Support Hot Line for customer's "user-trained" staff to troubleshoot problems and identify component failures. Service will also include the replacement (at no additional

charge to the customer) of any failed parts or components. Vendor's Hot Line must provide toll-free calling for the customer. Vendor will supply such "end-user" training as is needed for customer's staff to interact successfully with the Vendor's support staff on an ongoing basis. (Vendor should describe training program.) The offeror must provide the names, titles, addresses, and telephone numbers of the primary and backup contacts for service problems.

#### 4.3.2.9 Coterminal Maintenance

It is desirable that all maintenance solutions be coterminal with the use of the equipment. That is to say, if a purchasing entity replaces or discontinues the use of a piece of equipment covered under a maintenance agreement, the agreement can also be terminated and a credit is due to the purchasing agency.

Individual agencies may choose to work with the vendor(s) in order to secure maintenance agreements including contract dates coterminal with the calendar or States fiscal, and/or prorated maintenance pricing based on a calendar or fiscal year, and/or options to renew maintenance. However, it is not the intent of this RFP to define all of the possible scenarios available for these agreements. Details, other than those specified within this agreement, are to be worked out with the local vendors

***Response:***

**Enterasys Networks will refund the balance of a Service Contract should Enterasys Networks terminate the life of any product. A Service Contract may also be terminated with thirty (30) days written notice from the buyer and the contract balance will also be refunded.**

### **Standard Contract Terms and Conditions**

#### **Western States Contracting Alliance (WSCA)**

**1. PARTICIPANTS:** Western States Contracting Alliance (“WSCA”) is a cooperative group contracting consortium for state government departments, institutions and political subdivisions (i.e., colleges, school districts, counties, cities, etc.) for the states of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Minnesota, Montana, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington, and Wyoming. Obligations under this contract are limited to those Participating States who have signed (and not revoked) an Intent to Contract at the time of award, or who have executed a Participating Addendum where contemplated by the solicitation. Financial obligations of Participating States are limited to the orders placed by the departments or other state agencies and institutions having available funds. Participating States incur no financial obligations on behalf of political subdivisions. Unless otherwise specified in the solicitation, the resulting price agreement(s) will be permissive.

#### **2. DEFINITIONS:**

“Lead State” means the State conducting this cooperative solicitation and centrally administering any resulting price agreement.

“Offer” or “Bid” or “Proposal” refers to the offer submitted in response to a solicitation, whether denominated as an invitation for bid, request for proposal, or otherwise. “Bidder” or “Offeror” similarly refers to the person, company, or other entity submitting the bid or proposal that constitutes an offer capable of acceptance, regardless of the solicitation method used.

“Permissive price agreement” means that placement of orders through the price agreement is discretionary with Purchasing Entities. They may satisfy their requirements through the price agreement without using statutory or regulatory procedures (e.g. invitations for bids) to solicit competitive bids or proposals. Purchasing Entities may, however, satisfy requirements without using the price agreement so long as applicable procurement statutes and rules are followed.

“Participating Addendum” means a bilateral agreement executed by the contractor and a Participating State that clarifies the operation of the price agreement for the State concerned, e.g. ordering procedures specific to a State, and may add other state-specific language or other requirements.

“Participating State” means a member of WSCA who has indicated its intent to participate as disclosed on the solicitation, or who subsequently signs a Participating Addendum where contemplated by the solicitation.

“Purchasing Entity” means a Participating State or another legal entity, such as a political subdivision, properly authorized by a Participating State to enter into a contract for the purchase of goods described in this solicitation. Unless otherwise limited in this solicitation or in a Participating Addendum, political subdivisions of Participating States are Purchasing Entities and Participants authorized to purchase the goods and/or services described in this solicitation.

**3. QUANTITY ESTIMATES:** Estimated quantities are informational and not to be construed as a warranty of accuracy of historical or anticipated volumes or a guarantee to purchase any amount.

**4. SPECIFICATIONS:** Any deviation from specifications must be clearly indicated by offeror, otherwise, it will be considered that the proposal is in strict compliance. When BRAND NAMES or manufacturers' numbers are stated in the specifications they are intended to establish a standard only and are not restrictive unless the solicitation says "no substitute." Offers will be considered on other makes, models or brands having comparable quality, style, workmanship and performance characteristics. Alternate proposals offering lower quality or inferior performance will not be considered.

**5. ACCEPTANCE OR REJECTION OF BIDS AND PROPOSALS:** The Lead State reserves the right to accept or reject any or all bids or proposals, or parts of bids or proposals, and to waive informalities therein.

**6. SAMPLES:** Generally, when required, samples will be specifically requested in the solicitation. Samples, when required, are to be furnished free of charge. Except for those samples destroyed or mutilated during testing, samples will be returned at an offeror's request, transportation collect.

**7. CASH DISCOUNT TERMS:** Offeror may quote a cash discount based upon early payment; however discounts offered for less than 30 days will not be considered in making the award. The date from which discount time is calculated shall be the date a correct invoice is received or receipt of shipment, whichever is later; except that if testing is performed, the date shall be the date of acceptance of the merchandise.

**8. TAXES:** Offered prices shall be exclusive of state sales and federal excise taxes. Where the state government entities are not exempt from sales taxes on sales within their state, the contractor shall add the sales taxes on the billing invoice as a separate entry.

**9. MODIFICATION OR WITHDRAWAL OF BIDS AND PROPOSALS:** Bids and proposals may be modified or withdrawn prior to the time set for receipt of bids or proposals. After the time set for receipt of bids or proposals, no proposal may be modified or withdrawn.

**10. PATENTS, COPYRIGHTS, ETC:** The Contractor shall release, defend, indemnify, and hold harmless WSCA, the Participating States, and the Purchasing Entities, as well as the officers, agents and employees of WSCA, the Participating States and the Purchasing Entities, from liability of any kind or nature, including the Contractor's use of any copyrighted or uncopyrighted composition, process, patented or unpatented invention, article or appliance furnished or used in performance of this contract.

**11. AWARD:** Multiple contracts may be awarded as a result of this solicitation. Awards in requests for proposals (competitive sealed proposals) shall be made to the responsible offeror(s) whose proposals are determined to be the most advantageous to the Participating States, taking into consideration price and the other evaluation factors set forth in the solicitation. Unless otherwise stated in the solicitation, an award in an solicitation denominated as an invitation to bid will be made to the lowest responsive and responsible bidder(s) meeting specifications and all bid terms and conditions. The Participating States reserve the right to award items separately or by grouping items, or by total lot.

**12. NON-COLLUSION:** By signing the proposal the offeror certifies that the proposal submitted, has been arrived at independently and has been submitted without collusion with, and without any

agreement, understanding or planned common course of action with, any other vendor of materials, supplies, equipment or services described in the solicitation, designed to limit independent bidding or competition.

**13. TERMINATION:** Unless otherwise stated in the solicitation, any contract entered into as a result of this solicitation may be terminated by either party upon 60-days notice, in writing, prior to the effective date of the termination. Further, any Participating State may terminate its participation upon 30-days written notice, unless otherwise limited or stated in the special terms and conditions of the solicitation. Any termination under this provision shall not effect the rights and obligations attending orders outstanding at the time of cancellation, including any right of any Purchasing Entity to indemnification by the Contractor, rights of payment for goods/services delivered and accepted, and rights attending any warranty or default in performance in association with any order.”

**14. DEFAULT AND REMEDIES:**

Time allowed for cure shall not diminish or eliminate any liability for liquidated or other damages.

C. If the default remains after the opportunity for cure, the non-defaulting party may:

- (1) Exercise any remedy provided by law or equity;
- (2) Terminate the contract or any portion thereof, including any orders issued against the contract;
